‹ name ›

child + family composition sketch to be added

PERSONAL
- Using bullets in this section or short descriptions
- (font Atkinson Hyperlegibile)

- In 1 or 2 columns
- ….
- ….

STROKE
Using bullets in this section or short descriptions + include icons (slide 2) for mobility/sensory/cognitive impairments

CARE GIVERS
- Using bullets in this section or short descriptions ….
- ….

STORY 1

This text box will allow max 250 words in Garamond font size 10, working with bullet points is also an option and you might consider integrating the accessibilituy gradient icon

Please use symbols on slide 2 to tailor this care map

CARE MAP

Option: to here mention a place that is no longer accessible/ no longer a place the child goes to/enjoys going

"Consider including a quote either here or in the story block below. (font Atkinson Hyperlegible)"

STORY 3

This text box will allow about 200 words in Garamond font size 10

STORY 2

This text box will allow about 200 words in Garamond font size 10

Room to include photos/ sketch/ schematic

BUILD CARE

For you to use in the stroke profile:
*what do we need to add?*

# For you to use in your care map:
what do we need to add?

Where relevant this 'accessibility gradient' can be integrated alongside a scenario (based on Vermeersch & Heylighen, 2015, also see Eisazadeh et al, 2025)

🟥	impossible
🟧	with help
🟨	with tactics
🟩	independent
